

## MARKETING / COMMUNICATIONS SPECIALIST

Here's your chance to lead the marketing and communications efforts of a growing company! From fast cars to drone engine development, Baker Engineering's diverse products and customers make this a fun but challenging position. We are looking for the right person to help share information about our products and services through print and electronic methods.

Responsibilities will include:

Marketing Plan Development and execution,  
Technical Writing,  
Website Maintenance,  
Social Media,  
Trade Show and Event Coordination,  
Graphic Design,  
advertising,  
Sales Support Materials

The right candidate will have a degree in communications, marketing or related field, excellent written and oral communications skills, the ability to manage projects, and work well with people in a variety of settings and situations. A positive attitude, strong organizational skills, ability to meet deadlines, and attention to detail are also critical in this position.

This is a full time position, offering a competitive salary and company-paid benefits to the right candidate. To learn more about the company, visit [www.bakerengineeringinc.com](http://www.bakerengineeringinc.com) and [www.bakerengineeringmfg.com](http://www.bakerengineeringmfg.com).
