

International Sales Grants

February 2020

The State of Michigan has an exciting grant opportunity called MI-STEP designed to empower Michigan small businesses to export their products. Up to \$15,000 of assistance is available to offset 50% of pre-approved expenses per fiscal year. Some eligible expenses include website translation, design of marketing materials, international trade show participation, foreign sales trips and export training workshops.

Is your company looking to expand its international sales? Are you considered a Small Business by the SBA? Are you export ready? If you answered yes to these questions, you are on your way to qualifying for a MEDC grant aimed at Trade Expansion. The State of Michigan has a program designed to spur job creation by empowering Michigan businesses to export their products. To learn more, contact Elizabeth Butler at ebutler@grandhavenchamber.org.
