

Manpower's National Employment Outlook

February 2020

According to a Q1 2020 national survey, Manpower found that 72% of responding businesses plan to keep employment levels consistent, while only 22% plan to hire and 5% plan to downsize. This is among a range of businesses, not any particular sector. The states with the strongest jobs outlook include Arkansas, Maryland, New Hampshire and South Carolina. The Industries with the strongest outlook include Hospitality, Construction, Business Services and Retail.
