

MEET MODULAR LAMINATION & METALWORK, INC.

Specializing in worksurfaces and office furniture components, **Modular Lamination & Metalwork (MLM)** prides itself on its ability to manufacture customized furniture. Major Miller, who has over 12 years of experience in the office furniture industry, started MLM over a year ago in Spring Lake Township. They have received a lot of support locally and continue to grow nationally.

MLM is a worksurface manufacturer and distributor of office furniture components such as table legs, cantilevers and braces. With a new 5' x 12' CNC Router, they produce large custom designs, and longer conference room tables. They work with several local metal fabricators to produce custom metalwork, and work with local powder coaters to paint the metalwork. MLM works with its customers to design and create custom solutions to spatial dilemmas. They take pride in working swiftly and do not discriminate against order sizes or quantities. Have a CAD drawing, napkin drawing, idea or concept? Simply send MLM your needs and they will create a solution for you.
