

Do you know...

ARE YOUR UTILITY BILLS ACCURATE?

Utilities are one of the top operating expenses. Many factors impact utility bills, and *errors do occur* that are complex and difficult to uncover.

A Tenurgy utility bill audit is a zero-risk, hassle-free process to analyze (and scrutinize) a company's utility expenses. This in-depth process takes little time on your part with no out-of-pocket expenses.

What does Tenurgy analyze?

Gas, electric, telecom, water, sewer and waste.

What could Tenurgy find?

Billing errors, estimated and inaccurate meter readings, tariffs, usage data and inconsistencies, contract revisions, and many other obscure discrepancies.

What's the result?

9 out of 10 Tenurgy clients save big on utilities, and many receive utility refunds.
